About Me

Java Backend Developer with 4+ years of experience in building and maintaining Spring Boot-based microservices across telecom and healthcare domains. Hands-on experience with Java 8, 11, and 21, including service upgrades and modern Java features. Strong in REST API development, performance optimization, and production issue analysis using Splunk and Dynatrace. Comfortable working in Agile Scrum environments.

Technical Skills

Languages: Java (8, 11, 21), Python

Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Spring Security

Architecture: Microservices, REST APIs

Databases: MySQL, Oracle DB, SQL Server

Testing: JUnit, Mockito

Tools: Splunk, Dynatrace, OpenShift, Git, GitHub, GitLab, Postman

Methodologies: Agile, Scrum

Basic Knowledge: HTML/CSS, React, Typescript, Docker

Experience

Infosys Limited

Jan 2025 - Present

Associate Consultant

Indore, Madhya Pradesh

- Working as a Java Backend Developer on Spring Boot microservices in the telecommunications domain.
- Contributing to bug fixes, feature enhancements, and backend improvements in high-traffic services.
- Involved in Java version upgrades (Java 11 → 21) and backend performance optimizations.
- Actively analyzing logs and performance metrics using Splunk and Dynatrace.
- Collaborating with distributed teams using GitHub/GitLab and participating in Agile Scrum ceremonies.
- Following clean code practices and team coding standards to ensure maintainable and scalable backend solutions.

NCSI Technologies Pvt. Ltd.

Feb 2022 – Jan 2025

Software Engineer

Pune, Maharashtra

- Contributed to backend development of Spring Boot applications supporting healthcare workflows.
- Developed Restful Apis to facilitate communication between client and server applications, enhancing data exchange between healthcare systems.
- Applied Object-Oriented Programming principles, such as inheritance, encapsulation, and polymorphism, to build reusable and maintainable code, enhancing overall code quality and development efficiency.
- Integrated Crystal Reports tailored to healthcare analytics, improving reporting efficiency for hospital administrators and medical staff.
- Utilized Oracle and MySQL database optimization techniques, specifically tailored to healthcare data management, enhancing database query execution time.
- Implemented Spring Security protocols, ensuring compliance with healthcare data privacy regulations and reducing unauthorized access incidents.

Projects

Smart Contact Manager | Java, Spring Boot, JWT, Postman, Spring, MySQL, Git

Git

- Designed and developed REST APIs using Spring Boot with JWT-based authentication.
- Implemented Spring Data JPA for efficient CRUD operations.
- Followed layered architecture and clean coding practices.

Hotel Review System | Java, Spring Boot, Microservices, MySQL, Postman

Git

- Built microservice-based backend using Spring Boot.
- Implemented rating and review functionality with database integration.
- Used Lombok to reduce boilerplate and improve code readability.

Education

Acropolis Institute of Technology and Research, Indore

Sep. 2017 – June 2021

Bachelor of Technology(Computer Science and Engineering)

CGPA - 7.46

Certifications

- Microsoft Certified: Azure Fundamentals - Microsoft

Extracurricular

- Solved 200+ DSA problems across LeetCode, GFG, and CodeChef. [leetcode](#)
- Received Team Spot Award from NCSI Technologies for outstanding performance in August 2024
- Received Spot Award from NCSI Technologies for outstanding performance in April 2023
- Received Team Sport Award from NCSI Technologies for outstanding performance in July 2024
